SUNSAFE PROCEDURE

The aim of the policy is to ensure that all students attending Peakhurst Public School and all staff and volunteers working at Peakhurst Public School are protected throughout the year from the sun's harmful ultraviolet radiation (UVR).

The policy aims to promote sun safety and reduce exposure to UVR through:

- consideration of the school's outdoor environment,
- organisation of activities
- curriculum content, and
- education of students, staff and parents.

Implementation

School Outdoor Environment

1. Peakhurst Public School provides adequate outdoor shaded areas for the protection of children and staff. The need for more shaded areas will be monitored and assessed through the year. As funds become available, the school will provide additional shade areas.
2. Parents are required to provide a school hat for the children to wear.
3. Peakhurst Public School has a "NO HAT, NO PLAY" rule where students who do not bring a hat to school are required to stay in designated shade areas. This includes all sporting activities.
4. Students are expected to wear full school uniform. On days when school uniform is not compulsory, students are to wear clothing that covers shoulders and the midriff area.
5. Staff members practice sensible sun safe procedures.
6. Parents are asked to apply maximum protection sun block to their child's skin before arriving at school.
7. Parents are asked to provide a stick or roll-on sun block, to be kept in the children's bags for reapplication through the day.

Organisation of activities

8. Outdoor assemblies held between 11am and 3pm (DST) and 10am and 2pm (EST) will be held under shelter.

Curriculum

9. During Terms 1 and 4, students will be provided with sun safe education programs from the Personal Development/Health/Physical Education key learning area.

Education of students, staff and parents

10. During Terms 1 and 4, a 'sunsafe' update will be placed in the school's newsletter 'FOCUS' to inform and educate the school community.
